

Completed doctoral theses in TREC

2026

Leknessund OGR. Muscle strength and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2026.

Xavier S. P-selectin as a Biomarker for Venous Thromboembolism. Tromsø, Norway: University of Tromsø 2026.

Tøndel BG. The risk of venous thromboembolism after ischemic stroke. Tromsø, Norway: University of Tromsø 2026.

2025

Damoah, CE. The Involvement of the Complement Lectin Pathway in Venous Thromboembolism. Tromsø, Norway: University of Tromsø 2025.

2024

Arnesen, CAL. Differences in risk of venous thromboembolism in men and women. Tromsø, Norway: University of Tromsø 2024.

Edvardsen, MS. Plasma von Willebrand factor and risk of future venous thromboembolism. Tromsø, Norway: University of Tromsø 2024.

2023

Rinde FB. D-dimer for diagnosis and risk assessment of first and recurrent venous thromboembolism. Tromsø, Norway: University of Tromsø 2023.

Frischmuth T. Obesity-related venous thromboembolism. Tromsø, Norway: University of Tromsø 2023.

2022

Jørgensen H. The impact of socioeconomic status on the risk and prognosis of venous thromboembolism. Tromsø, Norway: University of Tromsø 2022.

Sejrup JK. Risk Factors and Triggers of Venous Thromboembolism in Patients with Myocardial Infarction. Tromsø, Norway: University of Tromsø 2022.

2021

Ramberg CC. The Role of Plasma Extracellular Vesicles and Procoagulant Phospholipid Activity in Venous Thromboembolism. Tromsø, Norway: University of Tromsø 2021.

Skille H. Combined effects of cancer and prothrombotic genotypes on the risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2021.

Johnsen HS. Biomarkers of major bleeding after incident venous thromboembolism. Tromsø, Norway: University of Tromsø 2021.

2020

Isaksen T. Dietary intake of marine polyunsaturated fatty acids and incidence, recurrence and mortality related to venous thromboembolism. Tromsø, Norway: University of Tromsø 2020.

Bjørri E. Triggers and risk factors of first and recurrent venous thromboembolism. Tromsø, Norway: University of Tromsø 2020.

Evensen LH. Physical activity, cardiorespiratory fitness and venous thromboembolism. Tromsø, Norway: University of Tromsø 2020.

2019

Liang RA. Role of Mannose-Binding Lectin and Complement Activation in Venous Thromboembolism. Tromsø, Norway: University of Tromsø 2019.

Børvik T. Impact of Chronic Obstructive Respiratory Disease (COPD), respiratory symptoms and oxygen saturation on the risk of incident venous thromboembolism (VTE) and VTE-related mortality in a general population. Tromsø, Norway: University of Tromsø 2019.

Småbrekke B. Shared risk factors for arterial cardiovascular diseases and venous thromboembolism. Tromsø, Norway: University of Tromsø 2019.

Høiland II. Role of the complement system in the pathogenesis of venous thromboembolism. Tromsø, Norway: University of Tromsø 2019.

2018

Arshad N. Venous thromboembolism: incidence, recurrence and mortality. Tromsø, Norway: University of Tromsø 2018.

Rinde LB. Arterial cardiovascular diseases and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2018.

Grimnes G. Infection, inflammation and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2018.

Jamaly S. Role of extracellular vesicles in the pathogenesis of venous thromboembolism. Tromsø, Norway: University of Tromsø 2018.

Ellingsen TS. Red cell distribution width and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2018.

Lappegård J. Red cell distribution width (RDW) and future risk of arterial cardiovascular diseases. Tromsø, Norway: University of Tromsø 2018.

Horvei LD. Obesity, body height and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2018.

2017

Lerstad G. Endocrine-related factors and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2017.

Lind C. Bidirectional association between arterial and venous thrombosis. Tromsø, Norway: University of Tromsø 2017.

Gran OV. Venous thromboembolism and cancer. Tromsø, Norway: University of Tromsø 2017.

2016

Sovershaev T. Bone morphogenic proteins: Novel mediators of atherosclerosis. Tromsø, Norway: University of Tromsø 2016.

2015

Jensvoll H. Cancer and venous thromboembolism. Tromsø, Norway: University of Tromsø 2015.

2014

Blix, K. Cancer-related venous thromboembolism. Epidemiology and risk factors. Tromsø, Norway: University of Tromsø 2014.

Hald, EM. Cardiovascular risk factors, atherosclerosis and venous thrombosis. The Tromsø Study. Tromsø, Norway: University of Tromsø 2014.

2013

Enga, KF. Lifestyle factors and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2013.

Hansen-Krone IJ. Behavioral factors and risk of venous thromboembolism. Tromsø, Norway: University of Tromsø 2013.

2012

Evgenov, NV. Magnetic Resonance Imaging of Pancreatic Islets Transplantation. An experimental study in mice and baboons. Tromsø, Norway: University of Tromsø 2012.
